FOREWORD

The annual Teacher Salary Study is designed to provide teacher salary information which is requested most frequently by data users. Because of space limitations, salary schedules are presented for those teachers who possess a professional or "A" certificate and are employed for a regular school term. Considerations for extra-duty pay and schedule changes occurring after the Fall 1985 submission to the Department of Education are not reflected in the salary schedules of this study. Salary schedules are presented for the 92 geographic school districts and two special school districts, Palmetto Unified School District, and South Carolina Department of Youth Services. The ranks of the salary schedule values and the average salary values are displayed only for the 92 geographic school districts. Palmetto Unified School District and South Carolina Department of Youth Services were excluded in the rankings since teachers in these districts are employed for 235 days.

The estimated average salaries for classroom teachers, and the averages for teachers, librarians and guidance counselors are calculated from the Fall 1985 contracted salaries which are reported through the Basic Education Data System (BEDS). The 1984-85 end-of-the-year average salaries for teachers are calculated from teacher salary information which appears on the final update of the Professional Certified Staff Listing. Both the estimated and actual end-of-the-year average salaries for classroom teachers, and the average salaries for teachers, librarians and guidance counselors are derived through summing the total contracted salaries for full-time positions and dividing the sum by the total number of full-time positions. The information reported in the Teacher Salary Study, 1985-86 should be useful in examining teacher salary schedules across the State

Please review the "Definitions and Explanations" on page 100 through 102 of this publication before using any of the data in the salary tables. Questions concerning the presented teacher salary information should be directed to:

1985-86 HIGHLIGHTS

- Seventy-eight (78) school districts (85 percent of the 92 geographic school districts) pay a beginning teacher (Bachelor's Degree and 0 years experience) a higher salary than required by the 1985-86 State Minimum Salary Schedule. In these school districts salaries for beginning teachers range from a low of 0.10 percent above the State Minimum to a high of 10.00 percent.

- Forty-five (45) school districts increased beginning teacher salary supplements to values which exceeded their 1984-85 level. The largest such increase is found in Hampton School District 2 which added a supplement of $800 for beginning teachers in 1985-86. In 1984-85, Hampton School District 2 paid beginning teachers according to the State Minimum Salary Schedule.

- Thirteen (13) school districts pay teachers according to the 1985-86 State Minimum Salary Schedule. One school district pays teachers according to the State Minimum Salary Schedule plus $1.00 in some cells. Seventy-eight (78) school districts pay teachers above the State Minimum Salary Schedule; however, eight (8) of these school districts did not submit salary schedules for teachers possessing a Doctor's Degree and/or Master's Degree plus 30 hours.

- The 1985-86 State Minimum Salary Schedule represents an increase of approximately 6.5 percent above the 1984-85 Minimum. According to the Office of Finance, this figure is based on a 5.1 percent increase from the S.C. Education Improvement Act (1984), and a .1175 percent increase from the Education Finance Act (1978).

- The estimated statewide average salary of teachers for 1985-86 is $21,428, a 6.4 percent increase over the 1984-85 average of $20,143.

- The highest estimated average salary for teachers in 1985-86 is $23,857 and is reported in York School District 4.

- The greatest dollar increase and percent increase in average salary for teachers from 1984-85 to 1985-86 is $1,887. This increase is reported for Colleton School District. The average salary in Colleton for 1984-85 was $18,776, and the 1985-86 estimated average salary is $20,663, which represents a 10.05 percent increase.

- The highest salary for a beginning teacher (Bachelor's Degree and 0 years experience) is $16,603 and is found in Barnwell School District 45 and Spartanburg School Districts 1 through 7.

- Hampton School District 2 provided the greatest dollar increase and percent increase in salary for a beginning teacher (Bachelor's Degree and 0 years experience). The 1985-86 salary of $15,894 represents an increase of $1,722 or 12.15 percent over the 1984-85 salary of $14,172.

ESTIMATED AVERAGE, 1985-86: The district and State estimated average salaries for 1985-86 are based on the Fall 1985 BEDS data collection.

TEACHERS: Only full-time classroom teachers (BEDS Codes 03-09) with a contract of at least nine months are included in the calculation of the averages.

TEACHERS, LIBRARIANS AND GUIDANCE COUNSELORS: Only the salaries of full-time classroom teachers, librarians and guidance counselors (BEDS Codes 03-11) with a contract of at least nine months are included in the calculation of the averages.

GUIDANCE COUNSELOR: Includes position code 11 from the Basic Educational Data System and "Professional Certified Staff Listing."

LIBRARIAN: Includes position code 10 from the Basic Educational Data System and "Professional Certified Staff Listing."

MINIMUM SALARY SCHEDULE: The Education Finance Act (EFA) of 1977 established a minimum salary schedule for teachers in South Carolina. The schedule is adjusted annually at the same percentage as the base student cost in the foundation program. All ninety-four districts pay teachers at least the minimum specified by State Statute.

The displayed schedules in this publication include only salary values for teachers with a Professional or "A" certificate and who are employed 190 days. The 1985-86 salary schedules for the 92 geographic school districts are compared to the 1985-86 minimum salary schedule for selected years of experience. The comparison shows the amount and percentage that the district pays beyond the amount required in the selected groups. The difference indicated in these tables should not be considered the equivalent to the local supplement under the State Aid System which was in effect prior to the implementation of the EFA. The EFA changed the method of State allocation, and local funding for teacher salaries is included in the minimum schedule on a percentage basis which varies by district.

RANK: Ranks are computed only for the 92 geographic school districts. The ranks appearing next to the salary schedule values and the average annual salary values indicate the position of the paid salary or average salary relative to the values for the other ninety-one districts. For example, a rank of 1 indicates that no other district has a higher value; and a rank of 60 indicates that exactly 59 districts have a higher value.

In some instances, there are large cell-to-cell variations in rank within a district. This occurs when a schedule is similar to that of a group of districts paying the same schedule values. For example, the seven school districts in Spartanburg County pay teachers essentially the same salary schedule values. A district with a similar salary schedule could have ranks differing seven places without a substantial deviation in comparative values.

There are approximately 60 different salary values per cell as reported by the 92 school districts. Districts with the lowest salaries rank from 68 to 80 for all educational levels and years of experience. For example, fourteen districts pay a beginning teacher the minimum salary of $15,094. These districts all tie for the bottom rank of 79. Note that while a rank of 79 means that exactly 78 districts rank higher, it does not mean that 14 districts rank lower. Therefore, one should be cautious when using these data.

SALARY SCHEDULE: The 1985-86 district salary schedules are reported as submitted to the State Department of Education in the Fall of 1985 by the ninety-two geographic school districts and two special school districts, Palmeto Unified School District and S.C. Department of Youth Services. Due to space limitations, the salary schedule data are presented only for teachers with a Professional or "A" certificate. Salary schedule data for teachers with less than a Bachelor's Degree (Class III certificate) and longevity increments beyond seventeen years of experience are not displayed. In instances in which district salary schedules lack a salary for a specific class or educational level, a dash (-) is used to denote the omission.

The 1985-86 salary schedules for the 92 geographic districts are compared to the 1984-85 schedules for selected years of experience. Please note that the comparisons represent the difference and percent difference between the two years in identical educational level and experience cells. The actual change in salary for an individual teacher from 1984-85 to 1985-86 would be greater due to the incremental step for experience.

TEACHER: Legally, a "teacher" is defined as any person who is employed either full-time or part-time by any school district either to teach or to supervise teaching (59-1-130, 1976 S. C. Code of Laws). For the purpose of this publication, teacher information originally collected through the Basic Educational Data System and updated via the "Professional Certified Staff Listing" was utilized in this report and includes teacher position codes, 03 (special education - itinerant teacher), 04 (child development teacher), 05 (kindergarten teacher), 06 (special education - self contained), 07 (special education -resource teacher), 08 (classroom teacher), and 09 (other professional instructional staff).

YEARS: The total years of educational experience include the number of years employed in a professional education capacity. Longevity increments beyond seventeen years of experience are not displayed on the salary schedules, however, all teachers, including those beyond seventeen years of experience, are included in the average salaries.
